A 4.2

Zachary Spicher, Anders Piepkorn, Gabe Findell, Zeze Siyad, Jack Ohmann, Kane John, Elijah Roell.

1- How would you divide this code to fit Model-View-Presenter architecture?
  ● We divided them based on how the functions would work within the project. Since we don't have access to the implementation of the code, we don't know exactly how they implemented it so we're forced to assume and pick the best fit.

VIEW:
class MainActivity

MODEL:

class MyAlbum
class MyAlbums

PRESENTER:
class AlbumActivity
class resultActivity
class SearchActivity
class LoginActivity
